

ENA Micro 90
A world first P.E.P.[®]: The perfect espresso thanks to the pulse extraction process

ENA Micro 90

Technical data

JURA standard features

Variable brewing chamber, from 6 g to 10 g	■
Intelligent Pre-Brew Aroma System (I.P.B.A.S. [®])	■
Second, ground coffee	■
Hot water function	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M. [®])	■
Multi-level Aroma ^{G3} grinder	■
CLARIS filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Intelligent preheating	■
Integrated rinsing, cleaning and descaling programme	■
Integrated milk system rinsing and cleaning programme	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■

Specific benefits

One-Touch function	■
Pulse Extraction Process (P.E.P. [®])	■
Plain text display	3-colour
Rotary Switch	■
Recognition for second, ground coffee	■
Monitored aroma preservation cover	■

Settings and programming options

Programmable amount of water	■
Amount of water adjustable for each preparation	■
Programmable coffee strength	10 levels
Coffee strength adjustable for each preparation	■
Programmable brewing temperature	2 levels
Programmable switch-off time	■

Also supplied as standard

Container for milk system cleaning	■
------------------------------------	---

In figures

Height-adjustable dual spout (milk / coffee)	55 – 138 mm
Water tank fill volume	1.1 l
Coffee grounds container (servings)	approx. 10
Bean container with aroma preservation cover	125 g
Cable length	approx. 1.1 m
Voltage	230 V AC
Power	1450 W
Energy consumption in energy-saving mode (E.S.M. [®])	approx. 4.7 Wh
Standby power	0 W
Weight	9.4 kg
Dimensions (W x H x D)	23 x 32.3 x 44.5 cm
Colour	Micro Silver

The benefits at a glance

- Pulse Extraction Process (P.E.P.[®]) optimises extraction time to guarantee professional quality, barista-style coffee
- One-Touch function for a range of specialities from espresso and latte macchiato to milk foam and hot water
- Coffee strength is adjustable on a continuous scale and Aroma^{G3} grinder is twice as fast – for coffee the way you like it
- Compact elegance for use in small spaces

ENA Micro 90

The first one-cup machine in the world with P.E.P.®

As a modern one-cup machine of the latest generation, the ENA Micro 90 dazzles with a wide range of speciality coffees, unique coffee quality, intuitive operation, compact dimensions and perfect hygiene. The Pulse Extraction Process (P.E.P.®) optimises the extraction time and guarantees maximum aroma with short specialities like espresso. The compact one-touch machine from JURA can prepare the full range of specialities, from latte macchiato, cappuccino and milk foam to coffee, espresso or hot water – at the touch of a button. And with its energy-saving mode it also offers outstanding energy efficiency.

Global innovation: P.E.P.® for espressi of outstanding barista quality

JURA has perfected the complete brewing process for short speciality coffees from 15 ml to 80 ml. That's why the ENA Micro 90 prepares them to the same standard you would expect in a coffee bar. The Aroma^{G3} grinder, now twice as fast, ensures that the coffee is optimally ground to preserve the full aroma. The variable brewing unit holds 6 to 10 grams of ground coffee and ensures the ideal brewing conditions at all times. The Pulse Extraction Process (P.E.P.®) optimises the extraction time by pulsing the hot water through the ground coffee at short intervals. This process allows the flavours of the coffee to fully develop. The coffee strength is infinitely variable to suit individual tastes.

Wide range of specialities

The ENA Micro 90 can do much more than 'just' make the perfect coffee: thanks to the One-Touch technology, it also creates trend specialities like latte macchiato and cappuccino at the touch of a button with milk and milk foam. It can also prepare a portion of milk foam with equal ease. The advanced fine foam technology creates fine, incredibly light milk foam every time.

Compact elegance

The ENA Micro 90 packs dazzling functionality into its compact dimensions. It will fit into a small space while cutting an elegant figure with its relaxed, clean lines. The way it leans towards the user expresses expertise, while the colours convey perfect harmony.

Self-explanatory operation

The clearly laid out operating module exudes the elegance of simplicity with its subtle, slotted buttons. All settings and programme functions can be selected by simply turning and pressing the Rotary Switch.

Perfect hygiene

One touch of a button is all it takes to start the integrated rinsing and cleaning programmes. Cleaning the milk system is also very simple. As an especially practical feature, the milk frother is easy to change when necessary. Because even with JURA's smallest automatic speciality coffee machine, perfect hygiene takes high priority.
